

**DETERMINATION AND FINDINGS
FOR A
SOLE SOURCE EXTENSION OF
CONTRACT**

CONTRACT NO.: DCRL-2013-R-0041
CAPTION: Training and Technical Assistance
PROPOSED CONTRACTOR: KVC Health Systems, Inc.
PROGRAM AGENCY: DC Child and Family Services Agency

FINDINGS

1. AUTHORIZATION:

D.C. Official Code §2-354.04, 27 DCMR 1304, 1700, 1701 and 2005.6(b)

2. MINIMUM NEED:

The Government of the District of Columbia, Child and Family Services Agency (CFSA), is seeking a contractor to continue providing training and technical assistance to implement trauma informed and focused care within their child welfare system to enable CFSA to become a Trauma Systems Treatment accredited organization.

3. ESTIMATED REASONABLE PRICE:

\$318,000.00

4. FACTORS WHICH JUSTIFY SOLE SOURCE PROCUREMENT:

CFSA seeks to become a trauma informed and Trauma Systems Therapy organization. Trauma Systems Therapy (TST) is a comprehensive model that addresses two areas: the individual treatment for traumatic stress in children and adolescents separately and within their environment and as an organizational model that facilitates the integration of services through breaking down barriers between service systems for which children with trauma interface.

TST provides effective, evidence-based services and interventions to help children and families who have experienced traumatic events. TST was developed by Dr. Glenn Saxe, M.D., Department Chair for Child and Adolescent Psychiatry at New York University, and Dr. Heidi Ellis at Boston University School of Medicine and Children's Hospital Boston.

KVC Health Systems, Inc, (KVC), a private non-profit agency, in 2008 partnered with Dr. Saxe to successfully transform its child welfare agency through integration of TST within its continuum of behavioral and child welfare services.

KVC has become Trauma Systems Certified and has partnered with Dr. Saxe to provide training, consultation and technical assistance to child welfare organizations to implement TST. The consultation will guide CFSA on how to integrate TST into programs, practices and processes, to ensure that the agencies/systems will be able to fully meet the needs of youth who have been exposed to traumatic events.

As TST is both a clinical and an organizational model, program staff is taught clinical assessment and treatment through the TST lens, as well as how to implement organizational systems change to become a trauma informed program. TST is the only model that includes transformation at the organizational level and not just at the child and family outcome level. Other Evidence Based Practices that focus on trauma such as Trauma Cognitive Behavioral Therapy are a clinical intervention, and while it is one component of a Trauma Systems Therapy organization, it is not a TST model.

KVC is the only organization that partners with the TST model purveyor to provide consultation to child welfare agencies. KVC, in partnership with Dr. Saxe and his team, has consulted with child welfare agencies in West Virginia, Kentucky and Nebraska, to become Trauma Systems Treatment organizations.

KVC has been a direct service provider to the three states where KVC's expertise on integrating TST provided positive outcomes on increasing safe and timely permanency, improving placement stability and strengthening the social, emotional, and physical functioning of children and their families by addressing the impact of child traumatic stress.

KVC will continue to provide organizational consultation, training on TST tailored to meet the competency needs for each type of audience, a series of facilitated book reviews, through webinar learning communities, of Dr. Saxe's book the *Collaborative Treatment of Traumatized Children and Teens: The Trauma Systems Therapy Approach*, case consultation calls on the application and implementation of TST to cases, and consultation on developing a train the trainer curriculum for social workers and foster parents. Throughout this process, KVC and Dr. Saxe will continue to work with CFSA to become a Trauma Systems Treatment accredited organization.

5. CERTIFICATION BY AGENCY HEAD:

I hereby certify that the above findings are true, correct and complete to the best of my knowledge.

Date

Brenda Donald
Director
Child and Family Services Agency

6. CERTIFICATION BY CONTRACTING OFFICER

I have reviewed the above findings and certify that they are sufficient to justify the use of the sole source method of procurement under the cited authority. I certify that the notice of intent to award a sole source contract was published in accordance with 27 DCMR 1304 and that no response was received.

Date

Tara Sigamoni
Agency Chief Contracting Officer

DETERMINATION

Based on the above findings and in accordance with the cited authority, I hereby determine that it is not feasible or practical to invoke the competitive bidding process under either Section 402 or 403 of the District of Columbia Procurement Practice Reform Act of 2010 (D.C. Law 18-371; D.C. Official Code §2-354.02 or 2-354.03). Accordingly, I determine that the District is justified in using the sole source method of procurement.

Date
