G.15.1.1 SECTION INCLUDES

G.15.1.1.2 Administrative and procedural requirements for schedules and reports required for proper performance of Work.

G.15.2 Summary of Work:

G.15.2.1 Ensure timely execution of Work using critical path method schedule, because timely Contractor performance is essential to this contract.

G.15.2.2 Allow District to monitor Contractor's Contract Schedule continuously and cooperate so that District may audit Contractor's management of Contract Schedule via comparison by District to copy of approved Contract Schedule under District's control.

G.15.2.3 Use approved Contract Schedule for management of entire Work and make no change, modification, or updating of logic and/or durations in Contract Schedule without prior written concurrence from District.

G.15.3 Purpose of this Specification:

G.15.3.1 Assure adequate planning, scheduling, and reporting during execution of Work so it may be executed in orderly and expeditious manner within specified time constraints.

G.15.3.2 Assure coordination of Contractor's self-performed work with work of:

G.15.3.2.1 All of elements of Contractor's organization, including subcontractors,

G.15.3.2.2 Between subcontractors and vendors at all tiers,

G.15.3.2.3 District personnel and District consultants and

G.15.5.1.2 Payment Procedures: Submittal of Schedule of Values.

G.15.5.1.3 Specification Section 01330 - Submittal Procedures: Submittal of Submittal Schedule.

G.15.6 Definitions:

G.15.6.1 Milestones: Milestones listed in Contract Documents represent only major items of work or interface dates. Milestones: Considered essential to satisfactory performance of this Contract and to coordination of work on Project. Indicate Milestones in Contract Schedule as zero duration activities with "Finish-No-Later-Than" dates. Milestones represent latest allowable completion durations, measured from Contract's initial District-issued Notice to Proceed (NTP). Unless specifically excepted by Change Order, alternates, or options if any and if exercised by District, shall be performed by Contractor within durations set out below. Coordinate application of following Milestones with contents of this specification and Work.

Milestone #	Activity Name	Duration (calendar days after NTP)
1	***NTP Issued***	
3	Phasing/Egress Plan Approved	10
4	Front-end Submittals approved	20
7	Start Commissioning	45
9	Substantial Completion (C of O)	55
10	Project Final Acceptance/Completion	60

G.15.6.2 Contract Schedule: Document that controls Contractor's timely execution of Work. It is initially defined by number of Work Days listed in Contract Documents for completion of each Milestone and for completion (in calendar days) of Work, until District approves Detailed CPM Schedule (DCS). Upon acceptance by District of DCS, DCS becomes Contract Schedule. Upon approval by District of mutually agreed change orders that amend DCS, most current such approved amended version of DCS becomes Contract Schedule.

G.15.6.3 Work Days: Defined as days in calendar during period of Work performance, excluding Saturdays, Sundays and legally-mandated federal employee holidays (which apply to area in which Work is performed). Federal Holidays: New Years Day, Martin Luther King's Birthday, President's Day, Emancipation Day, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day and Christmas Day. If holiday falls on Saturday, preceding Friday is taken as holiday, and if holiday falls on Sunday, following Monday is taken as holiday. Work Days: Considered fully available for Contractor to perform work indicated in pertinent activities in Contract Schedule, unless, upon Contractor request, authorized District's representative:

G.15.6.3.1 Contemporaneously annotates Contractor's daily report with acknowledgement that day reported upon was unavailable to Contractor for excusable causes, such as unusual severe weather or immitigable effects thereof,

G.15.6.3.2 Identifies specific activities by number so affected, and Identifies extent of such impact for each affected activity (i.e. percentage reduction of crew or equipment effectiveness and/or progress).

G.15.6.4 Data Date: Last Work Day of each month, for months between NTP and Acceptance, in accordance with schedule update requirements of this specification.

- G.15.6.5** Extended Overhead Cost: Cost incurred by Contractor in event Contract Time is extended beyond completion date set for entire Work, and District-caused time extension is sole-and-controlling cause of such extension. Only costs incurred by Contractor on project work site are eligible to be classified as Extended Overhead Costs, and only if Contractor satisfies pertinent requirements set out in this specification. Such Costs: Limited to direct daily costs associated with temporary facilities on project site and supervision assigned full-time to Project site. Actual or alleged off-site costs associated with time extensions shall be deemed fully compensated by percentage mark-ups in Change Order Section that is part of this Contract, if any, or as negotiated between parties.
- G.15.6.6** Work: Entirety of work to be performed by Contractor under this Contract.
- G.15.6.7** Activity: A discrete part of a project that can be identified for planning, scheduling, monitoring, and controlling the retrofit project. Activities included in a retrofit schedule consume time and resources.
- G.15.6.7.1** Critical activities are activities on the critical path. They must start and finish on the planned early start and finish times.
- G.15.6.7.2** Predecessor Activity: An activity that precedes another activity in the network.
- G.15.6.7.3** Successor Activity: An activity that follows another activity in the network.
- G.15.6.8** Cost Loading: The allocation of the Schedule of Values for the completion of an activity as scheduled. The sum of costs for all activities must equal the total Contract Sum, unless otherwise approved by Architect.
- G.15.6.9** CPM: Critical path method, which is a method of planning and scheduling a retrofit project where activities are arranged based on activity relationships. Network calculations determine when activities can be performed and the critical path of Project.
- G.15.6.10** Critical Path: The longest connected chain of interdependent activities through the network schedule that establishes the minimum overall Project duration and contains no float.
- G.15.6.11** Event: The starting or ending point of an activity.
- G.15.6.12** Float: The measure of leeway in starting and completing an activity.
- G.15.6.12.1** Float time is not for the exclusive use or benefit of either Owner or Contractor, but is a jointly owned, expiring Project resource available to both parties as needed to meet schedule milestones and Contract completion date.

G.15.6.12.2 Free float is the amount of time an activity can be delayed without adversely affecting the early start of the successor activity.

G.15.6.12.3 Total float is the measure of leeway in starting or completing an activity without adversely affecting the planned Project completion date.

G.15.6.13 Fragment: A partial or fragmentary network that breaks down activities into smaller activities for greater detail.

G.15.6.14 Major Area: A story of retrofit, a separate building, or a similar significant retrofit element.

G.15.6.15 Network Diagram: A graphic diagram of a network schedule, showing activities and activity relationships.

G.15.6.16 Resource Loading: The allocation of manpower and equipment necessary for the completion of an activity as scheduled.

G.15.6.17 GC Evaluation form: The GC evaluations will be conducted by the CA at each indicated retrofit completion stage. The evaluation forms will be utilized by the CA to determine the performance of the contractor including, but not limited to, any decision to release partial retention. The GC evaluation forms will also serve as "Past Performance" reference material on the contractor for future work sought by the contractor with DRES (CD) and the District.

G.15.7 Submittal Procedures:

G.15.7.1 Coordination: Coordinate preparation and processing of schedules and reports with performance of other retrofit activities. Coordinate (Contractor to coordinate) within seven (7) calendar days of NTP, a scheduling meeting between the District, general contractor, and all scheduling consultant(s)/responsible parties to review all baseline schedule requirements and/or District's clarifications prior to start of scheduling.

G.15.8 Submittals:

G.15.8.1 Detailed CPM Schedule (DCS): Submit to District within 21 calendar days following NTP five (5) hard copies and CD-ROMs including scheduling file of detailed time-scaled precedence format network graphics and reports of proposed DCS containing following:

G.15.8.1.1 Narrative of Contractor's proposed methodology, including proposed general sequencing plan.

- G.15.8.1.2** Activity number, description, duration, cost loading, resource loading, coding structure and total float for each activity.
- G.15.8.1.3** Sequence of operations for Work and order and interdependencies of Work activities. Indicate major points of interface or interrelation of such activities with activities of District and/or other contractors.
- G.15.8.1.4** Conformance with and identification of Milestone durations and/or dates specified.
- G.15.8.1.5** Delivery of District-furnished material and/or equipment, if applicable.
- G.15.8.1.6** Critical path (or paths).
- G.15.8.2** Special Constraints: Minimize special constraints and add none during execution of Work without District's express approval. Clearly identify and explain proposed special constraints including:
 - G.15.8.2.1** Finish-to-finish, start-to-start, start-to-finish, and finish-to-start leads and lags.
 - G.15.8.2.2** Starts-on, starts-no-earlier, finishes-on and finishes-no-earlier date constraints.
 - G.15.8.2.3** Special calendars, beyond approved standard five day and seven day calendars.
 - G.15.8.2.4** Resource caps.
- G.15.8.3** Duration and Cost Limits: The Contractor is to ensure that level of detail of Contractor's DCS is function of complexity of work involved. Ensure that activities have duration of not more than fifteen (15) Work Days and have value less than \$10,000.00, unless District expressly authorizes exception. In assessing proposed exceptions, District will take into account special attributes of Work, such as long-lead equipment with extended engineering, fabrication and delivery schedules.
- G.15.8.4** Key Items Procurement Report required during retrofit phase for "key" (major equipment and materials and long-lead (over eight weeks, from order placement to delivery)) items fabricated or supplied for Work. Include in DCS activities for submittal, submittals review, fabrication, in-plant testing, shipment and delivery, field installation, field testing, functional performance testing, acceptance and O&M manuals for key items.

- G.15.8.5** Schedule reports indicating activity numbers, description, estimated duration in Work Days, early start and finish dates, late start and finish dates, total and free float available for each and every activity and responsibility code for each activity.
- G.15.8.6** Cost reports including following activity information, sorted by labor category:
 - G.15.8.6.1** Activity number and appropriate description.
 - G.15.8.6.2** Total cost proposed for each activity.
 - G.15.8.6.3** Computer-produced cash-flow analysis and graphics generated by both early start and late start activity dates.
 - G.15.8.6.4** Details of Each Calendar. Base schedule on standard workweek consisting of five - 8-hour days (Monday through Friday), subject to Government holidays described above. Contractor may propose working outside of normal work hours, including multiple shifts, working holidays and weekends, and other non-standard calendars, provided Contractor obtains District approval minimum of five work days in advance of proposed occurrence of work outside of normal hours. Contractor's Schedule Calendars: Indicate Government holidays as non-working days, unless District expressly approves otherwise.
- G.15.8.8** Activity Details: Incorporate following elements and requirements in proposed DCS:
 - G.15.8.8.1** Use clear and concise activity descriptions, designed to ensure that beginning and end of each activity shall be readily observable and verifiable during execution of Work.
 - G.15.8.8.2** Restrict each activity to single performing organization including Contractor self-performing work organization(s), subcontractors, manufacturers, fabricators, and time-sensitive suppliers. Involve such performing organizations in development of Contract Schedule and secure their individual and collective express commitment to satisfy requirements of Contract Schedule proposed by Contractor to District. Cause said commitment from said performing organizations to be represented in form of signed acceptance by such parties, included with DCS submittal.
 - G.15.8.8.3** Code activities in DCS that are District responsibility to execute as District responsibility activities. Include such activities as review and acceptance of documentation (including DCS schedule), submittals, issuance of NTP's and other District activities. Allow adequate duration for District review activities and as noted in other sections of Contract, but never less than seven working days unless District expressly approves otherwise.

G.15.8.8.4 In addition to identification of responsible organization, each activity shall have codes identifying areas of work. Ensure that areas of work are planned and scheduled in DCS in manageable increments. Code such increments and assign code to each activity.

G.15.8.8.5 Distribute Contract Price over activities (cost loading). Mobilization, bond and insurance costs may be indicated separately on individual activities; however, prorate other general requirement costs, such as overhead and profit, throughout activities. Divide each activity's cost loading into each of labor, material, and equipment where Contractor desires to receive payment for uninstalled material delivered to project site separate from labor and/or equipment expenditure on activities concerned.

G.15.8.8.6 Activities for each of permits, notices, tests and inspections for pertinent activities and phases. Include review and approval activities that are the responsibility of the "Owner".

G.15.8.8.7 Build schedule to reflect incremental completion of project (by floor/by area/by systems/equipment). Include appropriate time for Contractor and District for inspection and development of incomplete and/or deficient work (IDW) lists, as well as correction and verification of IDW. Include time for re-inspection and re-correction where appropriate.

G.15.8.8.8 Submittals, in coordination with level of detail indicated in key items procurement report.

G.15.8.9 Submittals Schedule:

G.15.8.9.1 Submit schedule of submittals, arranged in chronological order by dates required by retrofit schedule. Include time required for review, resubmittal, ordering, manufacturing, fabrication, and delivery when establishing dates.

G.15.8.9.2 Coordinate Submittals Schedule with list of subcontracts, Schedule of Values, and Contractor's Retrofit Schedule.

G.15.8.9.3 Submittal: Submit concurrently with CPM schedule. At Contractor's option, show submittals on CPM Schedule, instead of tabulating them separately.

G.15.8.9.4 Submittals Schedule: Submit three (3) copies of schedule. Arrange the following information in a tabular format:

G.15.8.9.4.1 Scheduled date for first submittal.

G.15.8.9.4.2 Specification Section number and title.

G.15.8.9.4.3 Submittal category (action or informational).

G.15.8.9.4.4 Name of subcontractor.

G.15.8.9.4.5 Description of the Work covered.

G.15.8.9.4.6 Scheduled date for Architect's and Retrofit Manager's final release or approval.

G.15.8.10 Acceptance of DCS:

G.15.8.10.1 District's acceptance of Contractor's DCS is condition precedent to progress payments to Contractor.

G.15.8.10.2 Upon District's acceptance of cost-loaded values, use such values as sole basis for determining progress payments.

G.15.8.10.3 District's acceptance of proposed DCS signifies only that District's summary review of DCS leads District to believe that Contractor has met general requirements of this specification pertaining to DCS format and content. Acceptance by District of DCS does not relieve Contractor of any of its responsibility whatsoever for accuracy or feasibility of Contractor's plan for execution of Work, or to perform Work within specified time constraints. Such acceptance does not expressly or impliedly warrant, acknowledge or admit reasonableness of activities, logic, durations, manpower, cost or equipment loading of Contractor's proposed or accepted Contract Schedule.

G.15.8.10.4 District's acceptance in no way makes District or its representatives insurers of success of Contractor's time performance or liable for time or cost overruns flowing from shortcomings of Contractor-authored Contract Schedule. District disclaims and Contractor waives any District obligation or liability by reason of District's active or passive acceptance of or acquiescence to Contractor's schedule submissions.

G.15.8.10.5 Should Contractor fail to properly define any element of Work, activity or logic and District review does not detect this omission or error, such omission or error, when discovered by Contractor or District, shall be corrected by Contractor before next monthly schedule update and shall not be cause for delay of completion of Work within specified time constraints. Contractor acknowledges that District is not required or otherwise obligated to discover errors or omissions in Contractor's proposed Contract Schedule.

G.15.9 Quality Assurance

G.15.9.1 Scheduling Consultant Qualifications: Experienced specialist in CPM scheduling and reporting, with capability of producing CPM reports and diagrams within 24 hours of District's request.

G.15.10 Coordination

G.15.10.1 Coordinate preparation and processing of schedules and reports with performance of retrofit activities and with scheduling and reporting of separate contractors.

G.15.10.2 Coordinate Contractor's Retrofit Schedule with the Schedule of Values, list of subcontracts, Submittals Schedule, progress reports, payment requests, and other required schedules and reports.

G.15.10.3 Secure time commitments for performing critical elements of the Work from parties involved.

G.15.10.4 Coordinate each retrofit activity in the network with other activities and schedule them in proper sequence.

G.15.11 Float Time

G.15.11.1 Float Time: Not for exclusive benefit of either Contractor or District. Manage work according to early start dates, by commencing activities on early start date (calculated by latest approved Contract Schedule) or earlier if possible, unless constrained by bona fide resource limitation. District may reserve and apportion float time according to needs of Project. Actual or projected District-caused delays that do not exceed available float time shall not have any effect upon Contractor's adherence to specified time constraints and shall not be basis for time extension or additional compensation.

G.15.11.2 Contractor Acknowledges that:

G.15.11.2.1 Activity delays shall not automatically result in adjustment of specified time constraints,

G.15.11.2.2 Change Order (modification or amendment of contract) or other District action or inaction may not affect existing critical activities or cause non-critical activities to become critical,

G.15.11.2.3 Change Order or delay may result in only consuming part of available total float that may exist within activity chain of network, thereby not causing any effect on specified time constraints.

G.15.11.3 Pursuant to above float sharing requirements, use of float released by elimination of float suppression techniques such as preferential sequencing, special lead/lag logic restraints, unreasonably extended activity durations, or imposed dates shall be distributed by District to benefit of District and Contractor.

G.15.11.4 In event Contractor wishes to complete Work earlier than time specified therefore:

G.15.11.4.1 Continue to calculate float based on Work completion date specified as of Contract execution, by maintaining specified Work completion date as "finish-no-later-than" constraint.

G.15.11.4.2 Completion Time for Work: Not amended by District's approval of, acceptance of or acquiescence to Contractor's proposed earlier completion date.

G.15.11.4.3 Contractor: Not receive additional compensation for indirect, general, administrative or other forms of overhead costs, for period between time of earlier completion proposed by Contractor and completion time for Work specified as of NTP.

G.15.12 Updates:

G.15.12.1 Update Contract Schedule every two (2) weeks and in coordination with Contractor's requests for progress payments.

G.15.12.2 On working day (designated data date) approximately five (5) working days preceding time designated for monthly payment, meet with District for purpose of reviewing Contractor's report of actual progress. Submit Contractor's up-to-date and accurate progress data as of Data Date.

G.15.12.3 Submit monthly computer reports, CD-ROM of DCS software file, and network graphics that reflect progress of Work with respect to both cost and time, in accordance with requirements of initial Contractor-proposed DCS. Adjust selection and sort sequence, format and content of reports as directed by District.

G.15.12.4 Contractor acknowledges that updating Contract Schedule to reflect actual progress made as of date of update is not modification to Contract Schedule's Milestone requirements.

- G.15.12.5** Submit progress report indicating activities (and portions of activities by percentage) completed during reporting period, actual start dates for those activities currently in progress, actual finish dates for those activities which were completed since last update, and progress along and deviations from critical path in terms of days ahead or days behind each individual Milestone date.
- G.15.12.6** Submit narrative report which includes description of status of schedule, problem areas if any, current and anticipated delaying factors and their known and/or forecast impact, and explanation of corrective actions taken and planned.
- G.15.12.7** Submit list of actual number of personnel (or man-hours) by discipline by working day by activity actually engaged on Work during reporting period, with such total stated separately as to on-site office (project work location), administrative management personnel and on-site supervisory personnel.
- G.15.12.8** Submit two (2) updated copies of network. First Copy: Updated version of Contract Schedule, excluding Contractor-proposed changes. Second Copy: Updated version of Contract Schedule, including Contractor-proposed changes. Submit with second copy list of proposed modifications, additions, deletions and changes in activity logic and/or durations to approved Contract Schedule, including time-recovery steps and actions required by "Responsibility for Completion" provisions of this specification. Include written justification for each such proposal.
- G.15.12.9** If, as result of monthly update, it appears Contract Schedule no longer represents actual prosecution and progress of Work, submit revision to Contract Schedule. Include proposed adjustments in activity durations, logic changes, and resource usage or cost loading. Any negative float indicated in Contractor's proposed updates must be presented to District by Contractor with bona fide Contractor-authored plan for elimination of such negative float.
- G.15.12.10** District will respond in writing to each schedule update. District's response may include questions and/or requests for revisions. Respond in writing within seven calendar days, answering questions, and either agreeing with District's proposed revisions and submitting modified update, or setting forth justification why such revisions should not be implemented. If Contractor's justification for not implementing revision is acceptable, in District's sole judgment, such revision will be waived. If District does not accept Contractor's justification, incorporate District-directed revisions into Contract Schedule, and execute Work accordingly.

G.15.13 Progress Payments:

G.15.13.1 Contractor's submission and acceptance by District of monthly progress updates and reports calculating value of work done for any given pay period for each activity based on percentage complete for that activity less amount previously paid for past percentages complete and percent of retainage (if applicable) shall precede District's processing of payment to Contractor. Contractor: Entitled to progress payments only as set out in cost reports directly derived from Contractor's updated Contract Schedule, approved by District in form and content. If, in judgment of District, Contractor fails to provide full and complete Contract Schedule update as specified herein, Contractor shall be deemed to have not provided required information upon which progress payments may be made.

G.15.13.2 Monthly Progress Payments: Based upon information provided in Contractor's monthly schedule update. Computer-produced cost report, derived from updated DCS, will be utilized by District for calculation of amounts due Contractor. DCS resources pertaining to payment for materials shall govern payment of materials fully incorporated into Work. In event Contractor wishes to be paid for items stored on project work site but not incorporated in Work, or for items stored offsite, comply with procedures for such payment established by District.

G.15.14 Requested Time Adjustment Schedule (Rtas):

G.15.14.1 Updated Contract Schedule submitted by Contractor shall not indicate completion date later than specified time constraints, subject to time extensions approved by District. If Contractor believes it is entitled to time extension, submit to District, within deadlines set out herein and with each contemporaneous monthly update, separate schedule analysis entitled Requested Time Adjustment Schedule (RTAS). Indicate, in said analysis, in addition to requirements of General Conditions, proposed adjustments in Contract Schedule which, in opinion of Contractor, should be made due to changes, delays or conditions occurring during past month or previously, or which are expected or contended by Contractor. Time-scale said analysis utilizing computer generated and computer drawn network. This paragraph shall not relieve Contractor of its obligation to provide proper and timely separate written notice of impacts to schedule. Contractor acknowledges that its preparation of RTASs is not extra work to Contract and preparation by Contractor of RTASs shall not be cause for Contractor to receive any additional time for performance of Work or additional compensation.

G.15.14.2 Subject to float sharing requirements defined herein, time extensions will be granted only to extent of equitable and mutually acceptable time adjustments to activity or activities affected by Change Order(s), or where delay consumes total (positive or zero) float of critical activity (or path) and extends Milestone dates, using approved update of Contract Schedule that is current as of issue of District's written request for Contractor

proposal connected with potential Change Order or other District-accountability potential schedule effect.

G.15.14.3 Submit RTAS within ten (10) calendar days after initiation of thing(s) or event(s) which Contractor contends may lead to potential District-accountability delay in performance of Work, or from time of District's issuance of written request for Contractor proposal connected with potential change order (or documents of like effect), even if such issuance precedes notice to proceed for change order(s) concerned, whichever is later. Other District-caused potential impacts of any category shall be considered to have been initiated upon written initial District direction connected therewith, including direction provided through duly minuted meetings.

G.15.14.4 Within fourteen (14) calendar days following submittal by Contractor to District of RTAS, in proper format and including specified content, District will meet with Contractor to review submittal. Revise and resubmit RTAS within three working days of such meeting, adjusting RTAS to consider issues raised by District in above meeting. District will respond with written decision within seven calendar days following Contractor resubmittal of RTAS. Upon approval, copy of RTAS signed by District will be returned to Contractor and thereafter incorporated into Contract via Change Order. Incorporate results of each approved RTAS in update of Contract Schedule that immediately follows such approval.

G.15.14.5 Contractor waives its right to submit requests for time extension and to receive time extension unless it meets above requirements for RTASs. Contractor waives any claim for acceleration due to refusal by District to grant time extensions should Contractor fail to comply with submission and justification requirements described herein for RTASs. Contractor's submission of RTASs shall not constitute basis for adjustment in specified time constraints unless approved by District. Actively pursue timely completion of activities pending such approval.

G.15.15 Responsibility for Completion:

G.15.15.1 Provide sufficient forces, offices, materials, facilities, plant and equipment, to ensure prosecution of Work in accordance with most current approved Contract Schedule update. Upon District's written advice that Contractor is behind schedule, as result of inexcusable causes, immediately remediate such time loss by increasing hours of work, number of shifts, overtime operations and/or amount of plant and equipment, without additional cost to District. Contractor acknowledges that such remedial action by Contractor is not compensable acceleration of performance of Work. Provisions of this paragraph shall not be construed as prohibiting work on Saturdays, Sundays, and holidays, if Contractor so elects and gives written notice to District two (2) working days in advance of it.

G.31.2.2 If the parties fail to agree upon an equitable adjustment prior to the time the proposed change affects the contract work, or if the CO determines it is not feasible to reach an agreement regarding an equitable adjustment, either due to lack of time or other reasons, the CO will order the change in accordance with Article 3 of the General Provisions and the Contractor shall proceed with the execution of the work so changed.

G.31.3 Equitable adjustments shall be determined in the following manner, unless stated in the contract.

Cost or pricing data are factual, not judgmental, and are therefore verifiable. While they do not indicate the accuracy of the prospective Contractor's judgment about estimated future costs or projections, cost or pricing data do include the data forming the basis for that judgment. Cost or pricing data are more than historical accounting data; they are all the facts that can be reasonably expected to contribute to the soundness of estimates of future costs and to the validity of determinations of costs already incurred.
