SECTION C: SPECIFICATIONS/WORK STATEMENT

C.1 SCOPE:

The District of Columbia Office of Contracting and Procurement on behalf of the Office of Planning (OP) is seeking a Contractor to provide research, analysis, and best practices information on the effect of base closing and realignment activities of the military installations located in the District.

C.1.1 APPLICABLE DOCUMENTS

N/A

C.1.2 DEFINITIONS

N/A

C.2 BACKGROUND

OP has lead responsibility for land use planning in the District. OP provides vision, framework, and principles to guide public and private development and land use decisions. OP supports and coordinates efforts to enhance the city's neighborhoods, expand the employment base for residents, promote the District's economy, and retain and expand existing businesses and attract new ones. OP is responsible for zoning analysis, historic preservation, neighborhood and revitalization planning, interagency coordination of planning efforts, and serves as the District's official Census State Data Center.

In May 2005, the U.S. Department of Defense announced new domestic military installation closure and realignment recommendations to the Defense Base Realignment and Closure (BRAC) Commission for review and revision. The primary objective of the BRAC process is to realign base structures to reflect post-Cold War era needs, to identify and implement opportunities for greater unity between the Armed Services, and to transform the infrastructure to meet future demands of the military.

The District of Columbia is directly impacted by these recommendations because six of the BRAC 2005 targeted installations are located within its borders.

The BRAC Commission recommends substantial relocations of military, civilian, and contract workers. The relocations of personnel from and to these District-based installations may affect neighborhoods, businesses, employment, and the District economy.

C.3 REQUIREMENTS

C.3.1 The Contract shall provide research, analysis, and document best practices from communities impacted by BRAC, develop a Market Analysis and Economic Impact Study, draft a Transportation Study, and conclude with a Recommendations Report on the effects of base closing activities on the military installations located in the District as specified in C.3.2 through C.3.6.2.

C.3.2 BEST PRACTICES DOCUMENTATION

C.3.2.1 The Contractor shall conduct a comprehensive review and analysis of economic, environmental, and quality of life initiatives implemented in communities impacted by BRAC.

C.3.2.2 The Contractor shall compile a set of best practices applicable to Washington, DC to the Contract Officer's Technical Representative (COTR) to include the following a thru d as stated below:

- a) Documentation of best practices approaches;

C.3.2.2 The Contractor shall conduct research, analysis, and provide best practices information on the effect of base closing and realignment activities of the military installations located in the District. The goal is to evaluate the impact of BRAC closures and realignment on the: (1) economies; (2) environment; and (3) quality of life in the District of Columbia.

C.3.2.3 The Contractor shall provide a comprehensive understanding of BRAC activities in the Washington Region, a review of the best practices initiated by other communities impacted by BRAC, an evaluation of the economic impact on businesses proximate to military installations, and the identification of opportunities for new economic activities.

a) The District facilities include:

1. Anacostia Annex
2. Bolling Air Force Base
3. Leased Space DC
4. Naval District Washington
5. Potomac Annex
6. Walter Reed Army Medical Center

C.3.3 MARKET ANALYSIS AND ECONOMIC IMPACT STUDY

C.3.3.1 The Contractor shall collect, analyze and evaluate all existing and readily available data, studies; prepare draft Market Analysis; draft Economic Impact Study and final reports that pertain to the socio-economic and market conditions in the areas surrounding military installations in DC. This analysis should include such items as:

- 1) population demographics;
- 2) economic status;
- 3) residential characteristics;
- 4) recreational facilities;
- 5) strengths, weaknesses, opportunities, and threats analysis.

C.3.3.2 The Contractor shall study and evaluate the impact of BRAC activity on existing businesses and neighborhoods in DC. The Economic Impact Study shall identify the means to retain the existing intellectual capital and to attract new business through examination of best practices of other BRAC communities around the United States. The Economic Impact Study shall consider all aspects of economic development, including the impacts on existing businesses and an analysis of the stability and diversity of future economic development to be promoted.

C.3.3.3 The data reviewed should result in an initial analysis of the strengths, weaknesses, opportunities and threats as they relate to the social and economic conditions in the region.

C.3.4 TRANSPORTATION AND TRAFFIC STUDY

C.3.4.1 The Contractor shall conduct a transportation and traffic study of the military installations in DC considering current and likely future uses and conditions, including transportation and traffic impacts upon the transportation infrastructure.

While this workforce development impact study is separate from this project, this project should complement DOES' s work.

C.3.6 RECOMMENDATIONS REPORTS

- C.3.6.1 The Contractor shall provide a draft and final report that includes recommendations that will lessen the negative economic impact of BRAC activities and help position the city to take advantage of new economic development opportunities. The report shall focus on: economic development; environmental protection and enhancement; neighborhood quality of life and transportation.

L.1.2 Initial Offers

The technical proposal must contain sufficient detail to provide a clear and concise representation of the requirements in the statement of work.

Best and Final Offers will be subject to the Late Submissions, Late Modifications and Late Withdrawals of Proposals provision of the solicitation. After receipt of best and final offers, no discussions will be reopened unless the Contracting Officer determines that it is clearly in the District's best interest to do so, e.g., it is clear that information available at that time is inadequate to reasonably justify Contractor selection and award based on the best and final offers received.
