15A. Name and Title of Signer (Type or print)		16A. Name of Contracting Officer Diane Wooden		
15B. Name of Contractor	15C. Date Signed	16B. District of Columbia	16C. Date Signed	
(Signature of person authorized to sign)			12/4/07	
		(Signature of Contracting Officer)		

**1) Are there any special requirements for dust control?**

OCT could not find a response in the Intelsat Construction Regulations that says anything about dust control, but the contractor should take measures to make sure all vents are covered so that construction debris does not seep into other general work space.

**2) Who will handle the removal of existing furniture?**

OCT has requested OCP to add to the contract the removal of the existing furniture.

**3). Where will the staging area be located?**

The location of the staging area would be in one of the two bay areas that are located outside across from the garage.

**4). What will be the policy for elevator usage by contractor?**

All deliveries of construction supplies and materials shall be properly labeled for Contractor's attention and shall be made only through routes designated by landlord. OCT will allow the vendors to use the elevator that is located directly in our Pod and goes to the 1<sup>st</sup>, 2<sup>nd</sup> and 4<sup>th</sup> floors which is where the construction will take place. The Landlord will not accept, unload, or store contractor's construction supplies or materials. The dedicated use of the elevators for material transport purposes is severely limited during the peak traffic times of the building such as morning, lunch time and evening rush hours. If the need arises to use the elevators located in the atrium to transport materials it must be scheduled in advance with Landlord

**5). What is the policy regarding parking for contractors?**

General Parking: Workmen are to park off site, except loading and unloading company trucks.

**6).What about noise control?**

All fire alarm/sprinkler work, hammering, noxious paint/adhesive/chemical applications, or other work involving interrupting utility service or disrupting other occupants must be scheduled for non-operating hours. Such work must be coordinated with the Landlord at least 72 hours in advance.

**7).What is the policy for working on weekends?**

Work is generally only permitted between 6am and 5pm during the day, Monday through Fri. All such activities or work that must be performed during a time other than the stated hours must be coordinated with the Landlord at least 72 hours prior to the start of such activities.

**8). Who will supply the new furniture?**

Please clarify. Are you speaking of the consoles?

**9). Who will handle the HVAC balance?**

OCT currently has a contract with RSC for our current HVAC services. They are the city contractors for the District government.
