You are invited to a briefing on the new Medicaid Managed Care Organization (MCO) Request for Proposal (RFP), which was just published, by the DC Office of Contracts and Procurement on behalf of the Medicaid Program.

The purpose of this meeting is to present information on the RFP so that the advocates, providers and others can become familiar with the RFP and better understand the requirements that the selected MCO's will have under the new contracts.

Representatives from George Washington University will team with the Medicaid staff to brief you and answer your questions.
