Amendment No. 2
Metropolitan Branch Trail

**2000 – 14th Street, N.W., 3rd Floor Bid Room
Washington, D.C. 20009**

**Amendment No. 2
Metropolitan Branch Trail**

Questions for Metropolitan Branch Trail [Design-Build RFP] (No. DCKA-2007-R-0003)

1. This is a Design-Build Solicitation. Is it a One-Phase or Two-Phase process? Are there any Pre-Qualification requirements?

RESPONSE: It is a one-phase process. There are no pre-qualification requirements except those stated in the RFP.

2. What is available for Preliminary Design information? The Concept Plan was provided but it shows concepts only. Normally preliminary design information is provided for a Design-Build solicitation.

RESPONSE: The concept plan is the source for preliminary design information.

3. There is normally a stipend on Design-Build Solicitations to compensate the proposing team, especially the Designers. Is there a stipend for this solicitation?

RESPONSE: This is no stipend provided.

4. The Bid Date currently scheduled for June 27th does not provide sufficient time to prepare a Design-Build solicitation. Some preliminary design will need to be done to be able to provide bid pricing. Please consider extending the bid date – normally there is a 60-90 minimum day period to prepare a Design-Build package.

RESPONSE: The due date has been extended for 30 more days for a total of 60 days.

5. Is there any soils information (Geotechnical Report) or survey information available for the site?

RESPONSE: There are no soils information provided.

6. How will contaminated or hazardous materials be handled if they are found within the limits of work?

RESPONSE: The District will be responsible for any soils found to be hazardous or contaminated.

7. How will underground obstructions be handled if they are found within the limits of work?

RESPONSE: A change order will be needed to remove any underground obstructions.

8. Will there be any special drainage requirements for this project – none are shown within the typical section on the Concept Plans.

RESPONSE: No special drainage requirements are expected but the contractor will be responsible to obtain a storm water permit from DC DOE.

9. Please clarify the length and layout of the trail alignment to be used. The advanced copy contained in the package is different from the Concept Plan.

RESPONSE: The advanced copy in the package is the available right of way. There is 18' of right of way available from New York Avenue to Rhode Island Avenue. The right of way north of Rhode Island Avenue is 25'-66' wide. The new trail alignment runs from the existing trail under the New York Avenue underpass north to the Franklin Street bridge where it climbs up the slope to meet 8th Street, NE. See attached layout.

10. Please clarify the width of the trail – it is listed as 11' width in C.1.2 but 11'-12' width on Concept Plan 4-9. In Section C.5.1.2, it is stated that dimensions may differ at different points along the trail and decisions for these areas shall be made in consultation with the PM. What is the basis that should be used in the bid?

RESPONSE: The trail is 11' wide. The cross sections show 2' of shoulder. This is not excavated space. The only excavation is for the 11' of trail width.

11. Please clarify the R-O-W/easement width for the trail. Is it 18' or 25' as stated in the Concept Plan? If it is 18', where will the benches and increased widths be possible?

RESPONSE: The right of way is 18' wide south of Rhode Island Avenue and varies in width from 25'-66' north of Rhode Island Avenue.

12. Please clarify the need and requirements for the Waysides. Section C.5.5 states that no design/construction is needed but there is a lump sum pay item.

RESPONSE: Please delete section 5.5 and replace with the following: A wayside is rest area adjacent to the trail where trail users can stop. At a minimum, wayside design should include benches or seating areas, shade, landscaping and bicycle parking. See the rendering on page 4-12 of the MBT Concept Plan for an idea of a wayside. These rest areas should be located along the trail where there is sufficient space and potential need.

13. Will any work related to artwork be part of this package?

RESPONSE: No.

14. Are there any retaining wall types that are preferred or required? Are there any special requirements on the facing of the retaining wall?

RESPONSE: No, there are no preferred or required wall types. No, there is no special requirement for the facing. This facing faces the railroad tracks and will not be seen by any home owners.

15. Confirm that no requirements are included for connections to the Rhode Island Metro Station including bridges and retaining walls.

RESPONSE: This is correct. There are no connections to the Rhode Island Metro station as part of the RFP.

16. Clarify the Contractor design plan submittal requirements – they do not appear to be consistent between C.5.10 and C.6.5.3 thru C.6.8.3. For example, C.5.10.2 states that the Contractor Plans shall be submitted for review and approval at the 30% and 90% design stages; however, Sections C.6.5.3 thru C.6.8.3 put a large emphasis on the 100% design review and final design submittal.

RESPONSE: Please refer to section C.6.5.3 thru C.6.8.3 as the submittal requirements.

17. Is there a price estimate range for the RFP?

RESPONSE: \$2.5 - \$3.5 million

18. What is the schedule for the project?

RESPONSE: The RFP has been extended for 30 days. DDOT will review proposals and choose the best proposal. After a contract has been signed and the notice-to-proceed given, the project is scheduled to be completed in 12 months. DDOT is planning awarding the contract this summer and giving the notice-to-proceed this fall.

19. MAP of Lighting Area South of NY needed.

RESPONSE: See attached map.

20. Is there any wetland and/or forest delineation required?

RESPONSE: None expected.

21. Preferences to local hires.

RESPONSE: No.

22. Clarification: p. 31; section H.13.1; DBE goal of 28%.

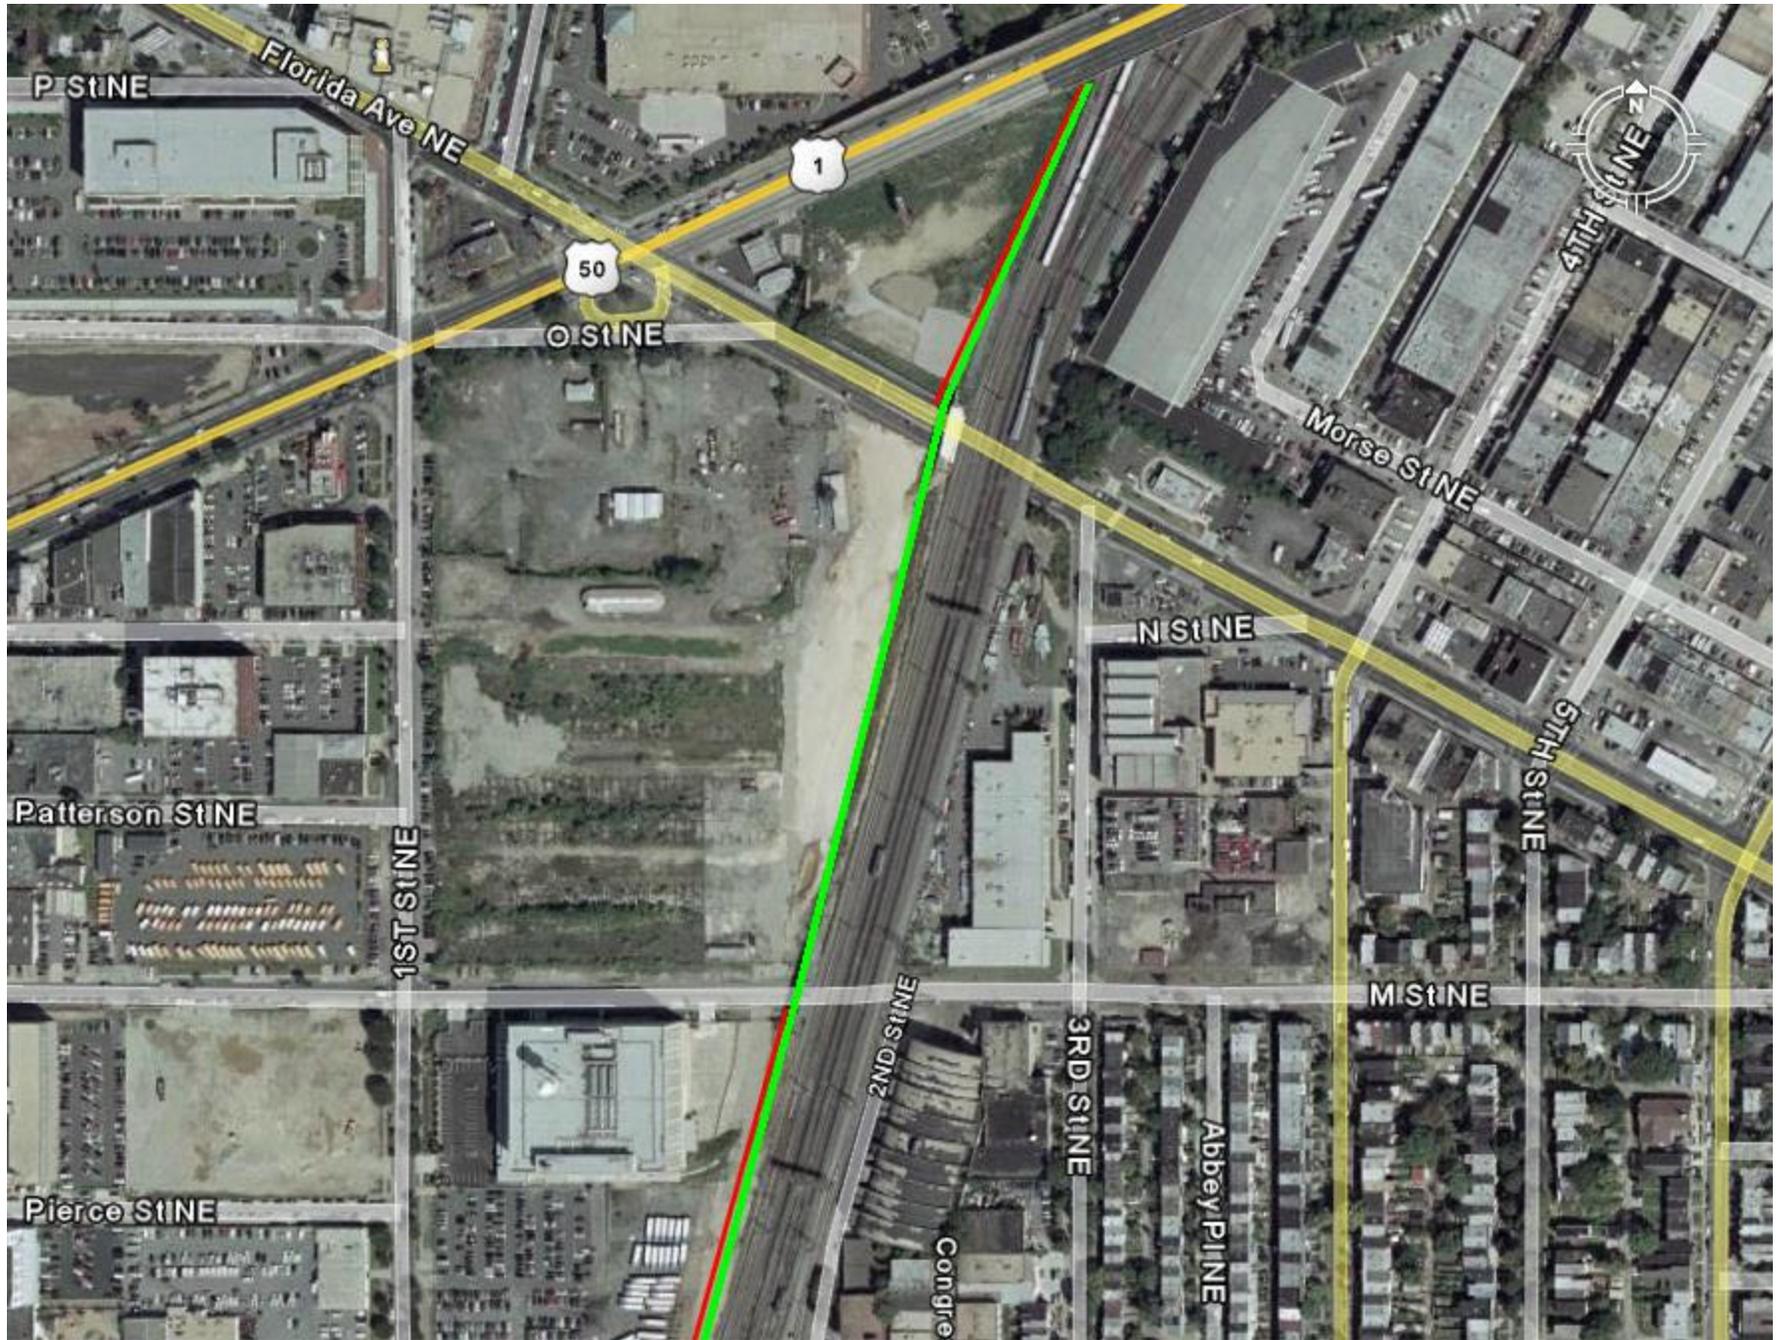

23. Clarification of the need for independent inspector.

RESPONSE: A third party independent firm is required to provide testing and inspection throughout job. Submit all reports to DDOT for final acceptance.

for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
