QUESTIONS AND RESPONSES

Question #1 Line item No. 0210 Brick Sidewalk Repair Per Each, Specs, Page-14 indicates that repairing small areas will be paid under this item. Could you please define “small Area”

Response: There are areas that are in good conditions except missing a few pieces of brick or a few pieces of brick that are loosened. They are not contiguous and difficult to be measured in terms of square yard.

Question #2 Line item No. 0170 brick Sidewalk on PCC base, line Item No. 0190 Brick Sidewalk Repair on PCC base, Specs, pages no. 13 & 14 It is understood that three types of bricks will be paid for under these two items 1. Chinatown Brick pavers, 2. Chinatown Animal brick Pavers, 3. Standard sidewalk brick pavers. There is no pattern for the artwork shown in the drawings or details. Please provide quantity for each type of paver.

Response: Brick pavers in China Town shall be Chinatown brick pavers. Animal symbols shall be in random pattern, one for each 200 square feet of sidewalk.

Bricks in other areas shall be standard sidewalk brick pavers. However, TPPA has indicated that China Town brick is an acceptable substitute of the standard brick.

Question #3 Contract Drawing indicates to “Relocate Trash Receptacle” on several streets (for Example Sheet-19), there is not Line item to pay for this work.

Response: See SP40 “Relocate Existing Benches and Trash Receptacles” on page 21.

Question #4 Line item No. 0180 Block Sidewalk on PCC base, Line Item No. 0200 Block Sidewalk Repair on PCC Base, Specs: page No 14 & 15, Drawing Sheet 67, It is understood from Specs. And drawing detail that only London pavers will be covered under these two items. Please verify.

Response: Use London pavers if they meet the specified requirements.

Question #5 Line Item No 0150 PCC Base for utility Cuts, it is understood that majority of quantity under this line item will be used for trenching for electrical conduits. Please verify.

Response: That is correct.

Question #6 Line Item No. 1000 payment to PEPCO \$558,800.00, Please verify that this amount is correct.

Response: That amount is an estimate based on current invoices from PEPCO times the number of connections and disconnection in the Contract.

Question #7 Conduit duct banks requiring a 3-way 2" conduit install. There's not a line item for this work. How do we invoice for this item? Example: PG 41 of 70, (MH 25 to L223-16, 1224-16 & L224a-16).

Response: We have added a new pay item for that work. (See Revised Pay Item Schedule)

Question #8 Traffic Signals, are we to reuse the traffic signals? If not will you add a line item?

Response: All traffic and pedestrian signals will be reused.

Question #9 Computer for the project engineer. Is a laptop acceptable?

Response: Use standard in Standard Specifications for Highway and Structures, 2005 Revised 2997 Sec. 624

Question #10 Existing manholes (Verizon, Pepco, DCSL-TS & DCSL). There is no line item for the repair,+/- from grade. Will you be adding a line item?

Response: There will be no adjustment of manholes.

Question #11 Locations to start work. Will there be any restrictions on how many stations/locations that can be work.

Response: With DDOT approval, construction may take place several non-contiguous blocks at a time.

Question #12 Work area: will there be any restrictions at certain locations, time of day and/or time of year?

Response: Work area restriction will be based on rush hours regulation for the street. DDOT may also impose additional restrictions. If additional restrictions are imposed, construction completion time may be extended.

Question #13 Time restrictions, solicitation suggest work hours 7am to 7pm and then states no work during rush hours. Can you clarify?

Response: On rush hours streets, no work shall be done during rush hours. Elsewhere the work hours are from 7 am to 7 pm. Contractor to visit the site before bidding the contract, to check streets for rush hour restrictions or other items that could effect working conditions..

Question #14 I understand that China Town biz district has a moratorium during the winter month. Will this affect the Contract?

Response: Contractor to complete the work in 365 calendar days as specified.

Question #15 Temporary sidewalk: A cold patch is usually used for the temporary closure until the concrete/pavers are installed. Will this material be allowed? I ask because in the past business owners frown on this material being tracked onto their property. If material is not allowed what would be suggested material to use? If so, will you be adding a line item?

Response: Use superpave as specified in Sections 402 and 407 of the Standard Specifications for Highway and Structures, 2005 Revised 2007

Question #16 Pole painting: Do you know how many assets have lead paint; can you paint them in place?

Response: We do not know which poles have lead based paint, however, based on age, and the fact that we have not tested them, we must assume that all have some lead paint. The District will have the option of having the Contractor remove the poles and transformer bases to an off site location, removing the paint, repainting and reinstalling the equipment in the old location, or having the Contractor furnish and install new transformer bases and poles.

Question #17 Are L1 numbers 0860 and 0870 required to include a house side shield (reflector). If so what specific style and type is required.

Response: No shields will be furnished for this contract.

Question #18 No dimensional data is provided for the decorative shroud as indicated on sheet 37 of the S.P.'s, please provide this information so that the proper shroud is selected for pricing purposes.

Response: We have added a sheet showing shroud detail. (See New sheet 66A)

Question #19 Please provide for LI 0730 618 436 Remove Steel Transformer Base.

Response: We have deleted pay item 618 454 Remove Steel Transformer Base”, and it will now be part of pole removal. (See Revised Pay Item Schedule)

Question #20 Will the District allow LI 0830 “Clean and paint streetlight pole” to be performed while the poles are in place or will they need to be removed and painted off site?

Response: See response to question #16

Question #21 Is it known by the District that the streetlight poles presently have lead based paint?

Response: See response to question #16

Question #22 Provide size of LI 0910 “Furnish and Install Electrical Junction Box”?

Response: The junction shall be 12” by 18” and have a depth of 24 inches

Question #23 Can work be performed behind the curb in the sidewalk area on rush hour streets?

Response: Yes, but only if no material, equipment construction signage/barriers and vehicles are located within the roadway.

Question #24 Will typical TCP’s be allowed or will the District require site specific plans?

Response: TCP should be based on the contractor’s construction phasing and should be approved by DDOT.

Question #25 The term “traffic Flow restriction” does this apply to pedestrian and vehicular traffic or just vehicular traffic?

Response: Traffic Flow Restriction applies to vehicular traffic only.

Question #26 What type material can be used for temporary sidewalks?

Response: See response to Question #15

Question #27 How many face blocks can be under construction at one time, what if any are the restrictions?

Response: The Contractor can work in as many block faces as the Project Engineer allows, but he cannot work in contiguous block faces at the same time.

Question #28 Does the “downtown holiday Construction Moratorium” between November 15th and January 15th apply to this project?

Response: Refer to section 108 of the Standard Specifications for Highway and Structures, 2005 Revised 2007.

Question #29 In review of the plans the legend does not indicate the installation of 2-4” conduits, but referencing to the conduit schedule: example from Sta. P16 to M02 22LF is to be installed. Question when and where are 2-4”s to be installed?

Response: We have revised the general notes, legend and abbreviation sheet to show 2-4” duct bank.

Question #30 After review of the conduit schedule and the legend please confirm that a 6-4” duct bank is to be installed from manhole to manhole. The legend does not correspond with the drawing, the drawing shows 4-4” example Sta. C52 to C53. Please confirm the correct duct bank.

Response: The conduit install table governs the number of conduits installed between manholes.

Question #31 Per the pay items there are three junction boxes to be installed could you confirm the dimensions of the junction box.

Response: See response to question #22.

Question #32 Conduit feeds to new traffic signal locations, where the signals are mounted on pendant post poles, with luminaries, DDOT has always required two separate conduit systems (one 4” and one 2” PVC) in order to keep the traffic cables separated from the lighting power cables. Even when there is only traffic signal on a 20” pole the conduit has always been a 4” conduit. The plans for this project indicate only one 2” conduit to each location.

Response: We are only replacing the power feed conduits to the pendant post with traffic signals, we are NOT replacing the conduit for the traffic signal cables. To replace the traffic conduit it would requiring pulling the traffic cables back into the PEPCO manhole and reinstalling them in the new conduit.

Question #33 Relocating existing signals to temporary and subsequently, permanent poles. Unless these intersections are controlled by the second signal fixture (which is not shown on the plans), then at some time during the relocation these intersection will be without any signal control. This is a situation which should be addressed.

Response: All intersections have the second signal for each direction, we did not show all signal poles at each intersection.

Question #34 There are locations that call for three 2” conduits (but don’t have a bid item for them) and I have no idea what a 19M pole is.

Response: We have added the Pay item for the 3-2” PVC conduits. A 19M pole is the old twin 20 pole shaft with the steel pipe inside and with one casing, instead of a cross arm. (See Revises Pay Item Schedule)

Question #35 Please confirm per the contract there will be no new traffic or pedestrian signals installed on this project. There is no pay item for this and the contract only instructions the contractor to remove and reinstall signals onto the new traffic and/or pendant pole.

Response: No new traffic or pedestrian signal will be installed as part of this contract

Question #36 In review of the plans for the above reference project and its pay items, I was not able to locate a pay item for 4-4” PVC conduit. However the drawings show approximately 1920 ‘ of said conduit. Could you please provide information as how to price this item since it seems to have been left out of the equations. Please advise as soon as possible.

Response: All conduit between DDOT manholes will be 6-4” conduits.

PROJECT NAME: Downtown Business Improvement District Streetlight and Streetscape

EQUAL EMPLOYMENT OPPORTUNITY CERTIFICATE

Bidder represents that he has has not participated in a contract or subcontract subject to in substance either the equal opportunity provisions in Article 6 of LABOR PROVISIONS, STANDARD CONTRACT PROVISIONS, 1973, or Section 202 of Executive Order 11246 of 3 CFR; that he has has not filed all required compliance reports under any such contract or subcontract; and that representations indicating submission of required compliance reports signed by proposed subcontractors will be obtained prior to subcontract awards.

NONSEGREGATED FACILITIES CERTIFICATE

Bidder represents that he does not and will not maintain or provide for his employees any segregated facility at any of his establishments; that he does not and will not permit his employees to perform their services at any location under his control where segregated facilities are maintained; and that he will obtain and retain identical certifications from proposed subcontractors prior to award of subcontracting exceeding \$10,000.00.

"Segregated facilities" shall mean any waiting room, work area, wash and rest room, eating area, time clock, locker room and other storage or dressing area, parking lot drinking fountain, recreation or entertainment area, transportation and housing facility, provided for employees which is segregated by explicit directive or is segregated on the basis of race, creed, color, or national origin, because of habit, local custom or otherwise.

Penalty for violations or making false statements is prescribed in 18 USC 1001.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor

200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
