RATING GUIDELINES

Summarize Contractor performance in each of the rating areas. Assign each area a rating of 0 (Unacceptable), 1 (Poor), 2 (Acceptable), 3 (Good), 4(Excellent), or ++ (Plus). Use the following instructions a guidance in making these evaluations.

	<b>Quality Product/Service</b>	<b>Cost Control</b>	<b>Timeless of Performance</b>	<b>Business Relations</b>
	<ul style="list-style-type: none"> <li>-Compliance with contract requirements</li> <li>-Accuracy of reports</li> <li>-Appropriateness of personnel</li> <li>-Technical excellence</li> </ul>	<ul style="list-style-type: none"> <li>-Within budget (over/ under target costs)</li> <li>-Current, accurate, and complete billings</li> <li>-Relationship of negated costs to actual</li> <li>-Cost efficiencies</li> <li>-Change order issue</li> </ul>	<ul style="list-style-type: none"> <li>-Meet Interim milestones</li> <li>-Reliable</li> <li>-Responsive to technical directions</li> <li>-Completed on time, including wrap-up and contract administration</li> <li>-No liquidated damages assessed</li> </ul>	<ul style="list-style-type: none"> <li>-Effective management</li> <li>-Businesslike correspondence</li> <li>-Responsive to contract requirements</li> <li>-Prompt notification of contract problems</li> <li>-Reasonable/cooperative</li> <li>-Flexible</li> <li>-Pro-active</li> <li>-effective contractor recommended solutions</li> <li>-Effective snail/small disadvantaged business Subcontracting program</li> </ul>
<b>0. Unacceptable</b>	Nonconformances are comprises the achievement of contract requirements, despite use of Agency resources	Cost issues are comprising performance of contract requirements.	Delays are comprising the achievement of contract requirements, Despite use of Agency resources.	Response to inquiries, technical/ service/administrative issues is not effective and responsive.
<b>1, Poor</b>	Nonconformances require major Agency resources to ensure achievement of contract requirements.	Cost issues require major Agency resources to ensure achievement of contract requirements.	Delays require major Agency resources to ensure achievement of contract requirements.	response to inquiries, technical/ service/administrative issues is marginally effective and responsive.
<b>2. Minimally Acceptable</b>	Nonconformances require minor Agency resources to ensure achievement of contract requirements.	Costs issues require minor Agency resources to ensure achievement of contract requirements.	Delays require minor Agency resources to ensure achievement of contract requirements.	Responses to inquiries, technical/ service/administrative issues is somewhat effective and responsive.
<b>3. Acceptable</b>	Nonconformances do not impact achievement of contract requirements.	Cost issues do not impact achievement of contract requirements.	Delays do not impact achievement of contract requirements.	Responses to inquires, technical/ service/administrative issues is usually effective and responsive.
<b>4. Good</b>	There are no quality problems.	There are no cost issues.	There are not delays.	Responses to inquiries, technical/ service/administrative issues is effective and responsive,
<b>5. Excellent</b>	The contractor has demonstrated an exceptional performance level in some or all of the above categories.

# STATEMENT OF WORK

## For Ongoing Support of the DDOT Snow AVL System

### Ground Equipment Maintenance

#### 1. BACKGROUND

The District Department of Transportation requires a vendor to provide installation, testing and maintenance services of the Automated Vehicle Location (AVL) on-board GPS/data modems and components during the 2009 – 2010 Snow Season. The existing DDOT AVL system utilizes on-board GPS/Data modems and routers to facilitate snowplow road treatment and tracking providing real-time accurate information on vehicle's locations, road conditions, and plow progress.

The successful operation of the Snow AVL system will require rigorous operational management and proactive maintenance in the following areas:

- Ground Equipment,
- Software Application System,
- Wireless Network.

This Statement of work pertains to required services for testing and maintenance of the snow fleet ground equipment. The successful offeror must have at a minimum, prior experience and working knowledge of the following:

- Commercial wireless communications services and Internet Protocol (IP) Addressing.
- Installation services of on-board AVL GPS/Data modems, antennas, telemetric sensors and conduit.
- The offeror must be experienced with the Links 300 Series Modems and Links 100 R Series Routers.
- They must have prior knowledge of the districts' current snow AVL installation configuration and the makes and models of district's snow vehicles' plowing and salting equipment.
- The offeror must have previous experience in using the District's Snow AVL road treatment and tracking application for testing all AVL vehicle installation.

#### 2. REQUIREMENTS

In support of the DDOT's Snow AVL ground equipment, a vendor will perform the following tasks:

The vendor must have past experience in the current AVL system of the District Department of Transportation snow AVL Program including the inter working of router-modem integration of other AVL related applications

Should have extensive knowledge and minimum of five (5) years of experience in DDOT Snow AVL program

### **2.1.Task: Welding Adjustments**

The vendor will inspect all vehicle sensor brackets and plow chains for proper calibration and will perform welding adjustment where necessary. The task will be performed in coordination with Task 2 and all other test tasks.

The vendor will provide warranty of all welding work.

### **2.2.Task: Complete Check Out**

The vendor will perform a complete check out of all outfitted snow vehicles (up to 45):

- Lights on modem box,
- Antennas,
- Cables,
- Computer display of vehicles on Snow AVL Application screen,
- Snow plow sensors,
- Spreader sensors,
- Antennas mirror mounts/cab mounts and modems,
- IP's configuration,
- Firmware configuration.

The vendor must fix onsite any detected problems and report outstanding issues to designated DDOT party.

The vendor will coordinate the effort with the DDOT designated party and will perform the services within the designated timeframe of One (1) year from date of award.

### **2.3.Task: Equipment Maintenance**

The vendor is required to perform first echelon service:

- Diagnostic service.
- Swapping DDOT spares.
- Shipping defective equipment for manufacturer repair, tracking and return to DDOT repaired equipment.
- IP/Firmware configuration (in case IP or other configuration setting has been lost).

The vendor must have the capacity to dispatch technician to a service call within one business day in non-emergency situation.

The vendor is expected to provide warranty on any service work performed on the ground equipment and fix free of charge any problems caused by such work.

**2.4.Task: On-demand Welding**

In addition to the above maintenance tasks, the vendor might be required and must have the capacity to provide welding services for any new or existing trucks added to the fleet or trucks needing adjustment after incident

**2.5.Task: On-demand Installation**

In addition to the above maintenance tasks, the vendor might be required and must have the capacity to provide installation services for any new trucks added to the fleet. The installation must include complete outfitting of the truck necessary for AVL operation (AVL modem, sensors, IP/firmware configuration, bracket welding and chain calibration).

The vendor will provide warranty of all welding and installation work at least until the end of the snow season.

**2.6. Deliverables**

The contractor shall perform the project in accordance with the following timeline schedule. In addition to periodic activities and deliverables required by the above scope of work, each activity must be completed and approved by the District the date specified below:

<b>Task</b>	<b>Activity</b>	<b>Estimated Due Date</b>
Task 2.1	All 240 trucks in the snow fleet are with calibrated sensors and chains.	12/20/2010
Task 2.2	All available vehicles are checked, issues are resolved and DDOT had signed an acceptance protocol.	12/30/2010
Task 2.3	Issues resolved within acceptable timeframe. Status reported to DDOT designated party.	Ongoing
Task 2.4	Welding services provided as requested by DDOT designated party.	Upon request
Task 2.5	Installed trucks upon DDOT request. Trucks tested and acceptance protocol signed by DDOT designated party.	On Going

The contractor shall:

- (a) Follow the procedures and rules of the Government of the District of Columbia and additional procedures that the District representative may direct from time-to-time.
- (b) During performance of work and/or at completion of work, provide orderly hand-over of work products and deliverables to designated District representative.
- (c) The contractor will provide weekly timesheets, in the formats supplied by the District, reporting all time worked by person's name, days worked, and time worked.
- (d) Establish and document project goals and optional strategies for their implementation. Support analyses with graphical drawings, charts, and other presentation instruments.
- (e) Collect and document project constraints for cost, schedule, and quality. Obtain approval from the District representative for proposed scope changes.
- (f) Throughout the performance of the above items, coordinate with District employees and other consultants/contractors employed by the District.
- (g) Provide limited support after submission of deliverables and work products, as necessary to clarify the contents of deliverables to District staff and other contractors to the District.
- (h) Develop, obtain approval for, and execute a quality control plan. Provide periodic senior management supervision of the work in this contract in order to provide quality control of the contractor's work. Report findings to District representative with propose actions. Provide this service at least every two weeks.
- (i) Continuously monitor the status of contractor's work hereunder and update status, providing District management timely information regarding possible problems and proposed action required to mitigate such problems.
- (j) Continuously communicate status of the work relative to the approved schedule. Every two weeks provide an updated status schedule for the contractor's work.
- (k) Prepare and present weekly reports, throughout the performance of the contractor's work, setting out current and upcoming activities, decisions required and issues of concern. Timely, complete, and satisfactory provision by the contractor to the District of such reports shall be a condition precedent to payment of the contractor.
- (l) Provide reporting and communications in copies and form requested by the designated District representative.

---

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$3.35 per hour or \$134.00 per week or \$580.66 per month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and

related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives.

Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

\*\* UNIFORM ALLOWANCE \*\*

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A link to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination.

Attachment CWage Determination No 8 - 05-26-09.txt  
Conformances may not be used to artificially split, combine, or subdivide  
classifications listed in the wage determination.
