## C.1 SCOPE:

### **Statement of Work – Emergency Snow Removal at 500 District Bus Stops and 12 Streetcar Platforms**

As a consequence of the Snow Emergency, the District Department of Transportation (DDOT) on behalf of the Government of the District of Columbia (District) has an immediate need for a Contractor to remove all snow and ice from 500 bus stops across the District and 9 Streetcar platforms on H Street and 3 doublewide Streetcar platforms on Benning Road. The Contractor shall clear the bus stop and Streetcar platform areas so that riders may safely move between the bus or Streetcar and the sidewalk bus stop or Streetcar platform area. The attached list, J.10, provides the exact locations of the stops. For a snowfall of 8 inches or less, the Contractor shall complete all work within 24 hours of Notice to Proceed after the Emergency Contract award. In the event of a snowfall greater than 8 inches, the Contractor shall complete all work within 48 hours of Notice to Process after the Emergency Contract award. The Contractor shall provide all labor for the effort and shall clear all snow, ice and any other material in a professional and workman-like manner leaving no residual ice or snow.

For each designated bus stop, the Contractor shall clear an area (referred to as the “clear area”) of 30 feet in length parallel to the curb, beginning at the bus stop pole and moving in the opposite of the direction of travel, and 8 feet deep, perpendicular to the curb to allow passengers to enter and exit the buses safely. However, if the sidewalk dimensions are smaller than the “clear area” prescribed above, the sidewalk area should be cleared to the extent possible. The purpose of Contractor’s work is to clear all 500 bus stops so as to make them fully accessible so that riders may safely move between the adjoining sidewalks, the bus stop, and the bus. In the event the bus stop has an adjacent accessibility ramp to the crosswalk, the access to that ramp shall also be cleared as well so that users may safely move to and from the bus stop to other destinations.

For any designated bus stop that was already cleared by a property owner or other party, the Contractor shall clear a new bus stop according to attachment, J.10. For each designated Streetcar platform the Contractor shall clear an area (referred to as the “clear area”) of 75 feet in length parallel to the curb beginning at the Streetcar stop pole and moving in the opposite of the direction of travel, and 8 feet deep on H Street / 16 ft. double wide platforms on Benning Road, perpendicular to the curb to allow passengers to enter and exit the Streetcars safely. The purpose of Contractor’s work is to clear all 9 Streetcar platforms on H Street and 3 doublewide Streetcar platforms on Benning Road so as to make them fully accessible so that riders may safely move between the adjoining sidewalks, the Streetcar stop, and the Streetcar. The Contractor should not remove the snow by putting it into the roadway, as that would interfere with bus or Streetcar operations. Shoveled snow should be placed in tree boxes, grassy areas, and the area just after the bus stop pole (in the direction of travel) or prior to the Streetcar platform, in the area known as drop zone, (See diagrams below) to keep the remaining sidewalk as clear as possible, as per DCMR 24 1701.1(d). All surfaces cleared of snow shall also be treated with calcium chloride or an approved substitute in an effort to protect the concrete surfaces.

In accordance with the provisions of the Way to Work Amendment Act of 2006 and Section 15 of the Standard Contract Provisions, the living wage rate is hereby adjusted to \$13.85 per hour, effective as of January 1, 2016. The Living Wage Act Fact Sheet and the Living Wage Act Notice are attached and hereby incorporated in the Contract (Attachment J.5)
