Q1.	Is there a previous bid/contract on this opportunity? If there was, would we be able to see it or receive a copy?			
A1.	<i>Please visit the OCP website to view awarded contracts. To obtain a copy of any contract, you may submit a FOIA request via the DC Government Public FOIA Portal.</i>			
Q2.	Would it be possible to get a list of potential prime contractors bidding for this work?			
A2.	<i>We do not have a list of potential bidders. We will know when they submit. You are welcome to ask for an abstract of bids at that time.</i>			
Q3.	Will the measure of payment for line items #880, #885, #890, and #895 in the base year and all option years be changed from lump sum to hourly?			
A3.	<i>Yes, the solicitation has been updated accordingly via Amendment No.7 (AO07).</i>			
Q4.	Line #0130 Item #302002 refers to Valve Casing ITEM 305 003- DUCTILE IRON PIPE 4" TO 8". Is this item for valve casing only or ductile iron pipe 4" to 8"?			
A4.	<i>This item is for valve casing only.</i>			
Q5.	Lien #0140 Item #305991 refers to Pipe Water Main- Ductile Iron Special Item- LF. Please identify the size of pipe for this item.			
A5.	<i>This item is for the typical water main pipes encountered on minor arterial roads. There is no size of pipe specified.</i>

Q7.	The unit of measurement for line # 0275 item # 316 009 Clean Sewer Structures is per EACH item instead of LF item. Are we going to use per LF for this item on this project?			
<i>A7.</i>	<i>On Pg. 6 of 95 this item is shown as LF for units.</i>			
Q8.	Line item 0880, Item # 901-007 Mason, Line 0885, Item # 901 001, Line 0890 Labor, and Line 0895 Carpenter are all being paid in terms of LUMPSUM unit. To accurately access (sic) the cost on these work force, a per hour unit is most appropriate. Could you please change the unit of measurement from LUMPSUM to per HR?			
<i>A8.</i>	<i>This is a mistake. The unit for these items should be HR. ITEM # 901-001 FOREMAN should also be unit HR as the previous ones in the question.</i>			
Q9.	If Item 402010 12.5 MM asphalt refers to 12.5MM asphalt between 0-150 tons per location, why is it that the estimated quantity for this item is only 100 tons? Same question for 150-300 tons where it has an estimated quantity of 100 tons only.			
<i>A9.</i>	<i>The intent of the item schedule is to provide the Contractor flexibility in selecting the source of materials along with having tiered pricing for the placement of different quantities of asphalt per location. The contractor will use an approved DDOT mix design and the tiered pricing will be the total asphalt placed for a location.</i>			
Q10.	Line #0350, 0355 and 0360 all are using the same item 402991 and 400-017. Please modify the item number so that one can have distinction from the other. Also, the estimated quantities for asphalt between 0-150 tons, 150-300 tons are only 100 tons. Is the minimum quantity for these items supposed to be 150 tons.			
<i>A10.</i>	<i>This is a two part question. 1st - Please Use "Proposal Line Number" as the unique identifier. 2nd - Please see answer above for questions on estimated asphalt quantities.</i>			
Q11.	Lien #0140 Item #305991 refers to Pipe Water Main- Ductile Iron Special Item- LF. Please identify the size of pipe for this item.			
<i>A11.</i>	<i>This item is for valve casing only.</i>

Q16.
