SECTION C: SPECIFICATIONS/WORK STATEMENT

C.1 SCOPE:

The Department of Public Works' Solid Waste Management Administration (SWMA) requires a contractor to provide ongoing management analysis of data contained in the existing Public Works Trakster software application in conjunction with data from other systems used at SWMA such as the Motorola CSR and ArcGIS. The services to be provided will include (1) Performance Reporting and Analysis, (2) Ad hoc reporting, and (3) periodic development of data-driven management recommendations for utilization and deployment of crews in response to ever-changing work requirements, (4) Route analysis, development and modification.

C.2 BACKGROUND

The Department of Public Works Solid Waste Management Administration (DPW SWMA) uses a variety of software systems to manage the work it performs. These systems store data related to type of work, location, time, mileage, routes, personnel, tonnage of waste collected, service requests, and equipment used. Data from these systems often interrelate and there is a constant need for analysis that requires cross referencing of data from one system with data from another. Tools such as Excel spreadsheets, ArcGIS, and MS Access are used to perform analysis of the data housed in these separate systems. This contract will procure the services of a firm that can provide the comprehensive management analysis skills that are needed. Familiarity with all the systems in use at DPW SWMA is required. The systems are described below:

Public Works Trakster is a web-based software used by the Department of Public Works' Solid Waste Management to manage the District's residential collections, street and alley cleaning services, and solid waste enforcement program. The Administration uses two of the three available Trakster modules – (1) Fieldtrak which captures, tracks and reports on operational performance and costs of DPW routes, including employee time/attendance and crew/equipment status and utilization. Approximately 100 employees at 10 field locations currently use the system to support a full array of Solid Waste Management programs. The principle locations are the Reeves Center, the Administration's South Capitol Street offices, and the Solid Waste Collections W Street yard; and (2) Servtrak which works as a customer service system where customer service requests – primarily for solid waste containers – are entered, updated and tracked. Trakster receives data from the District's 311 system and creates the appropriate work management queues.

Motorola Customer Service Request (CSR) is the 311 system used by the Office of Unified Communications to log service request calls from citizens of the District of Columbia and to farm those requests out to the agencies responsible for them. CSR has functions for querying and reporting on service requests that are logged in the system. These functions allow users to determine numbers of opened and closed service requests over user-defined periods of time and within areas that have been designated within the system. Data can be extracted from the system in various ways. Reports can be created and exported to Excel spreadsheets, or the creation of a designated request type in the CSR database can trigger a copy of the associated record into an external database. That function provides for the automated update of agency systems with new requests for work. The process can work in reverse as well. When a work related to a service request is documented in an agency system, the completion of specified tasks can trigger an update of the associated record within the CSR system. An

interface between Trakster and CSR has already been developed for residential trash and recycling container requests.

ArcGIS and a third party add-on software package (RouteSmart) is used at DPW SWMA to map route boundaries, service request locations, perform routing analysis, and review and analyze a variety of geographic data produced by City agencies. The GIS database is used to supplement information for analysis of data coming out of both Trakster and CSR. Trakster and CSR provide data that is used as routing model inputs. Many analysis results are depicted in map form by using the ArcGIS software to plot data in relation to other DC map layers.

This management analysis contract will include analysis of complex problems that must be examined using the data contained primarily in these systems.

L.3.2 Withdrawal or Modification of Proposals

An offeror may modify or withdraw its proposal upon written, telegraphic notice, or facsimile transmission if received at the location designated in the solicitation for submission of proposals, but not later than the closing date and time for receipt of proposals.

Oral explanations or instructions given by District officials before the award of the contract will not be binding.

L.5 FAILURE TO SUBMIT OFFERS

Recipients of this solicitation not responding with an offer should not return this solicitation. Instead, they should advise the CO, James Roberts, 2000 14th Street, NW Washington, DC 20009 (202) 671-2200, by letter or postcard whether they want to receive future solicitations for similar requirements. If, however, a contract is awarded to this offeror as a result of or in connection with the submission of this data, the District will have the right to duplicate, use, or disclose the data to the extent consistent with the District's needs in the procurement process. Contract Appeals Board (Board) a protest no later than ten (10) business days after the basis of protest is known or should have been known, whichever is earlier. A protest based on alleged improprieties in a solicitation which are apparent at the time set for receipt of initial proposals shall be filed with the Board prior to the time set for receipt of initial proposals. In procurements in which proposals are requested, alleged improprieties which do not exist in the initial solicitation, but which are subsequently incorporated into the solicitation, must be protested no later than the next closing time for receipt of proposals following the incorporation. The protest shall be filed in writing, with the Contract Appeals Board, 717 14th Street, N.W., Suite 430, Washington, D.C. 20004. L.10 UNNECESSARILY ELABORATE PROPOSALS

Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective response to this solicitation are not desired and may be construed as an indication of the offeror's lack of cost consciousness. L.11 RETENTION OF PROPOSALS

All proposal documents will be the property of the District and retained by the District, and therefore will not be returned to the offerors.

L.16 BEST AND FINAL OFFERS

If, subsequent to receiving original proposals, negotiations are conducted, all offerors within the competitive range will be so notified and will be provided an opportunity to submit written best and final offers at the designated date and time. Best and final offers will be subject to the Late Submissions, Late Modifications and Late Withdrawals of Proposals provisions of the solicitation. After receipt of best and final offers, no discussions will be reopened unless the CO determines that it is clearly in the District's best interest to do so, e.g., it is clear that information available at that time is inadequate to reasonably justify contractor selection and award based on the best and final offers received. If discussions are reopened, the CO shall issue an additional request for best and final offers to all offerors still within the competitive range.

L.17 LEGAL STATUS OF OFFEROR

Each proposal must provide the following information:

If the offeror is a corporation or partnership and does not provide a copy of its license, registration or certification to transact

business in the District of Columbia, the offer shall certify its intent to obtain the necessary license, registration or certification prior to contract award or its exemption from such requirements; and

L.17.3 If the offeror is a partnership or joint venture, the names and addresses of the general partners or individual members of the joint venture, and copies of any joint venture or teaming agreements.

Their resumes shall be included. The hours that each will devote to the contract shall be provided in total and broken down by task.

SECTION M - EVALUATION FACTORS

M.1 EVALUATION FOR AWARD

The contract will be awarded to the responsible offeror whose offer is most advantageous to the District, based upon the evaluation criteria specified below. Thus, while the points in the evaluation criteria indicate their relative importance, the total scores will not necessarily be determinative of the award. Rather, the total scores will guide the District in making an intelligent award decision based upon the evaluation criteria.

M.2 TECHNICAL RATING

M.2.1 The Technical Rating Scale is as follows:

Numeric Rating	Adjective	Description
0	Unacceptable	Fails to meet minimum requirements; e.g., no demonstrated capacity, major deficiencies which are not correctable; offeror did not address the factor.
1	Poor	Marginally meets minimum requirements; major deficiencies which may be correctable.
2	Minimally Acceptable	Marginally meets minimum requirements; minor deficiencies which may be correctable.
3	Acceptable	Meets requirements; no deficiencies.
4	Good	Meets requirements and exceeds some requirements; no deficiencies.
5	Excellent	Exceeds most, if not all requirements; no deficiencies.

M.2.2 The technical rating is a weighting mechanism that will be applied to the point value for each evaluation factor to determine the offeror’s score for each factor. The offeror’s total technical score will be determined by adding the offeror’s score in each evaluation factor. For example, if an evaluation factor has a point value range of zero (0) to forty (40) points, using the Technical Rating Scale above, if the District evaluates the offeror’s response as “Good,” then the score for that evaluation factor is 4/5 of 40 or 32.

If subfactors are applied, the offeror’s total technical score will be determined by adding the offeror’s score for each subfactor. For example, if an evaluation factor has a point value range of zero (0) to forty (40) points, with two subfactors of twenty (20) points each, using the Technical Rating Scale above, if the District evaluates the offeror’s response as “Good” for

the first subfactor and “Poor” for the second subfactor, then the total score for that evaluation factor is 4/5 of 20 or 16 for the first subfactor plus 1/5 of 20 or 4 for the second subfactor, for a total of 20 for the entire factor.

M.3 EVALUATION CRITERIA

Proposals will be evaluated based on the following evaluation factors in the manner described below:

M.3.1 TECHNICAL CRITERIA (70 Points)

M.3.1.1 Technical Approach (Total Points Possible: 40 points)

The Offeror has a complete understanding of and the ability to meet DPW/SWMA Management Analysis requirements and objectives as demonstrated by the Offeror’s project management plan detailing its organizational structure and staffing plan to successfully provide the required services. The Offeror shall provide a description of project reporting procedures and status updates along with examples of project report/status reports. The Offeror shall also demonstrated its understanding of the types of analysis that are needed to meet the challenges and improve efficiency and effectiveness of operations. For this sub factor, the District will evaluate the Offeror’s approach to the following service components:

- (a) Parameters to track and to evaluate both program and individual efficiency and performance
- (b) Means of tracking the designated parameters
- (c) Factors involved in supporting rerouting and route adjustments
- (d) Tracking of employee time and overtime
- (e) Tracking and resolution of service request and complaints
- (f) Tracking of Equipment

M.3.1.2 Technical Expertise (Total Points Possible: 20 points)

The Offeror has demonstrated relevant experience in management analysis services for municipal solid waste operation of a large-scale comparable to that required in the RFP. The Offeror has provided appropriate documentation of staff credentials and has proposed key personnel that possess the necessary qualifications for and experience providing management analysis services for solid waste operation.

M.3.1.3 Past Performance (Total Points Possible: 10 points)

The Offeror has demonstrated its ability to perform the requirements of this RFP by its relevant, successful past performance on similar contracts.

In evaluating the Offeror’s successful past performance, the District will review the extent that the client references provided rated the Offeror’s performance as satisfactory or better in the areas of:

- Experience in analysis of solid waste management data and reporting and usage of route-based or activity-based work management systems.
- Expertise in the operation of standard Microsoft Office applications for the creation of spreadsheets, databases, graphs, charts, reports, and presentations.
- Understanding of solid waste routing concepts and factors that impact route development and adjustment
- Familiarity with customer service request systems and analysis of customer service request data
- Excellent written and oral communication and presentation skills
- Familiarity with ESRI ArcGIS software and GIS data.

M.3.2 PRICE CRITERIA (30 Points)

The price evaluation will be objective. The offeror with the lowest price will receive the maximum price points. All other proposals will receive a proportionately lower total score. The following formula will be used to determine each offeror's evaluated price score:

$$\frac{\text{Lowest price proposal}}{\text{Price of proposal being evaluated}} \times \text{weight} = \text{Evaluated price score}$$

M.3.3 PREFERENCE POINTS AWARDED PURSUANT TO SECTION M.5.2 (12 Points Maximum)

M.3.4 TOTAL POINTS (112 Points Maximum)

Total points shall be the cumulative total of the offeror’s technical criteria points, price criterion points and preference points, if any.

M.4 EVALUATION OF OPTION YEARS

The District will evaluate offers for award purposes by evaluating the total price for all options as well as the base year. Evaluation of options shall not obligate the District to exercise them. The total District’s requirements may change during the option years. Quantities to be awarded will be determined at the time each option is exercised.

M.5. PREFERENCES FOR CERTIFIED BUSINESS ENTERPRISES

Under the provisions of the “Small, Local, and Disadvantaged Business Enterprise Development and Assistance Act of 2005”, as amended, D.C. Notwithstanding the availability of the preceding preferences, the maximum total preference to which a certified business enterprise is entitled under the Act is the equivalent of twelve (12) points on a 100-point scale for proposals submitted in response to this RFP. There will be no preference awarded for subcontracting by the prime contractor with certified business enterprises.

Payment is deemed to be made for the purpose of earning the discount on the date of mailing of the District check.
