Thus, while the points in the evaluation criteria indicate their relative importance, the total scores will not necessarily be determinative of the award. Rather, the total scores will guide the District in making an intelligent award decision based upon the evaluation criteria. The District reserves the right to reject any or all proposals determined to be inadequate or unacceptable. The District may award a contract on the basis of initial offers received, without discussions. Therefore, each initial offer should contain the Contractor's best terms from a technical and cost/price standpoint.

M.2 PROPOSAL EVALUATION

M.2.1 The technical evaluation criteria set forth below have been developed by agency technical personnel and have been tailored to the requirements of this particular solicitation. The Contractor is informed that these criteria will serve as the standard against which all proposals will be evaluated and serve to establish the evaluation criteria including the evaluation factors and significant sub factors which the Contractor should specifically address in complying with the requirements of Sections C and L.

An evaluation team of 5 will conduct the proposal evaluation. The evaluation of proposals is an assessment of the proposal and the Contractor's ability to perform the prospective contract requirements successfully. The evaluation will utilize a numerical scoring process for the evaluation factors as described in Section M.3. The Contractor's strengths, deficiencies, significant weaknesses and risks associated with performing the requirements of the contract will be examined within each evaluation factor.

M.2.2 The Contractor's technical proposal and price proposal shall be evaluated separately. Contractors are advised that the Government, based on the criteria outlined below, will evaluate the technical and price proposals.

M.3 TASTE TEST EVALUATION

M.3.1 An evaluation team of 5-10 will conduct the taste test evaluation. The evaluation of taste test is an assessment of the box lunches taste, smell, appearance and the Contractor's ability to perform the prospective contract requirements successfully. The evaluation will utilize a numerical scoring process for the evaluation factors as described in Section M.3. The Contractor's strengths, deficiencies, significant weaknesses and risks associated with performing the requirements of the contract will be examined within each evaluation factor.

M.4 EVALUATION CRITERIA

M.4.1 TECHNICAL RATING SCALE

Numeric Rating	Adjective	Description
1	Unacceptable	Fails to meet minimum requirements; major deficiencies which are not correctable.
2	Poor	Marginally meets minimum requirements; significant deficiencies which may be correctable.
3	Acceptable	Meets requirements; only minor deficiencies which are correctable.
4	Good	Meets requirements; no deficiencies.
5	Excellent	Exceeds most, if not all requirements; no deficiencies.

For example, if an evaluation factor has a point evaluation of 0 to 20 points, utilizing the Technical Rating Scale the District evaluates the Offeror's response as "good," the score for that evaluation factor is 3/5 of 20. The Offeror's total score will be determined by adding the Offeror's score in each evaluation factor.

M.4.2 EVALUATION FACTORS

Each of the following evaluation factors will be used by the District in evaluating the services proposed by the Contractors under this solicitation. The Contractor should respond to each factor and significant sub factors in a way that will allow the District to evaluate the Contractor's response. The scoring for each evaluation factor will be based on the District's determination of the degree to which the Contractor satisfies the requirements within the factor and significant sub factors as well as the proposals deficiencies, weaknesses and risks to the District.
