10. EVALUATION FACTORS

10.1 The District intends, but is not obligated, to make a single award to the responsible Quoter whose quote is most advantageous to the District, based upon the evaluation criteria specified in the solicitation. Thus, while the points in the evaluation criteria indicate their relative importance, the total scores will not necessarily be determinative of the award. Rather, the total scores will guide the District in making an intelligent award decision based upon the evaluation criteria. The Technical Rating Scale is as follows:

| <u>Numeric Rating</u> | <u>Adjective</u> | <u>Description</u> |
|-----------------------|----------------------|---|
| 0 | Unacceptable | Fails to meet minimum requirements; <i>e.g.</i> , no demonstrated capacity, major deficiencies which are not correctable; offeror did not address the factor. |
| 1 | Poor | Marginally meets minimum requirements; major deficiencies which may be correctable. |
| 2 | Minimally Acceptable | Marginally meets minimum requirements; minor deficiencies which may be correctable. |
| 3 | Acceptable | Meets requirements; no deficiencies. |
| 4 | Good | Meets requirements and exceeds some requirements; no deficiencies. |
| 5 | Excellent | Exceeds most, if not all requirements; no deficiencies. |

For example, if a sub factor has a point evaluation of 0 to 10 points, and (using the Technical Rating Scale) the District evaluates as "good" the part of the proposal applicable to the sub factor, the score for the sub factor is 8 (4/5 of 8). The sub factor scores will be added together to determine the score for the factor level.
