

**MISSION SPECIFIC AMMUNITION  
STATEMENT OF WORK**

**C.1. Scope**

The Firearms Training Unit (FTU) of the Maurice T. Turner Jr., Metropolitan Police Academy, (MPA) seeks a contractor to provide ammunition for training and real world deployment purposes. The Chief of Police has authorized Winchester 9mm #RA9124TP, 124 grain (JHP) as the only authorized 9mm duty ammunition and 9mm 124 grain (TMJ) ball ammunition as practice.

**C.1.1. Applicable Documents**

Metropolitan Police Department range ammunition requirements.

**C.1.2. Definitions**

<b>FTU</b>	Firearms Training Unit
<b>MPA</b>	Metropolitan Police Academy
<b>JHP</b>	Jacketed Hollow Point
<b>TMJ</b>	Total Metal Jacket
<b>9mm</b>	NATO Specification For Ammunition Required For Department pistols

**C.2. Background**

The Firearms Training Unit (FTU) of the Maurice T. Turner Jr., Metropolitan Police Academy is tasked with the responsibility of training members of the Metropolitan Police Department semi-annually with issued service pistols and members of the Emergency Response Team and other specialized units with the H&K MP-5 sub gun. There are currently 4200 personnel that are required to qualify with their service pistol semi-annually. The semi-annual qualification course requires at a minimum one hundred four (104) rounds per shooter (52 rounds of 9mm ball ammunition plus 52 rounds of Winchester (#RA9124TP street ammunition) or a total of two hundred thousand (200,000) rounds of Winchester and two hundred thousand (200,000) rounds of CCI-Speer 9mm. The number of practice rounds fired during qualifications actually varies

## Attachment A

therefore ammunition supplies should accommodate ten thousand (10,000) additional rounds per qualification period of ball ammunition.

There are currently fifty- (50) ERT personnel that are required to complete MP-5 training every quarter. This training consists of quarterly qualifications as well as tactical weapons skills. The qualification course requires two hundred (200) rounds per person per quarter or a total of ten thousand (10,000) rounds per quarter. The number of rounds fired during skills training varies with the exercises being performed therefore ammunition supplies should accommodate one thousand (1000) additional rounds per person each quarter.

### **C.3. Requirements**

**C.3.1** Upon award of the contract, the Contractor shall provide the following types of ammunition:

- a. Winchester 9mm #RA9124TP, 124 grain (JHP)
