STATEMENT OF WORK

Safe Guard HA

District of Columbia Government

BACKGROUND

OCTO is currently providing managed server services and support to District of Columbia Public Schools. The DCPS open systems server equipment will be relocated from 825 N. Capital into OCTO’s data centers computer room. Additional hardware and software will be required to establish a High Availability solution. This solution provides recovery easy for [Exchange](#), [SQL](#), [Virtual Systems](#), [Oracle](#) and Windows based systems.

1.1 Purpose

The purpose of this purchase is to procure the necessary hardware and services required to replicate data between data centers in the event that one data center is unavailable. The SafeGuard appliances product and services enable OCTO to protect and recover business-critical data and applications to support [disaster recovery](#), [high availability](#) and [centralized backup](#).

PROJECT ACTIVITIES

Implement the following licenses to establish data replication between two sites to protect critical data.
